

Future Leaders Academy

2022-2023 and beyond

Informing Our Future with CREIO Research

We are pleased to announce a new research collaboration between think2perform Research Institute (t2pRI) and the [Consortium for Research on Emotional Intelligence in Organizations \(CREIO\)](#).

[Dr. Robert Emmerling](#), Director and Co-Chair of CREIO and a leading expert in the assessment and development of competencies and emotional intelligence in the workplace, and his research team will review t2pRI's [Future Leaders Academy](#) program and evaluate its impact on promoting emotional intelligence in Future Leaders Academy members. The goal of this initiative is to improve outcomes and strengthen the foundational components of our new Future Leaders Academy.

think2perform Research Institute is honored to enter into this collaborative agreement with Dr. Emmerling and CREIO, and we are grateful for their

investment in our program. We look forward to their findings in support of our efforts to help prepare high-achieving high school and college students from low-income backgrounds and underrepresented communities to become exceptional leaders in Minnesota's communities, schools, and workplaces. If you believe in the importance of emotionally intelligent leadership and developing an ecosystem of new leaders for our future, we invite you to join us with your own [investment](#).
