

# Future Leaders Academy

2022-2023 Future Leaders and Mentors

Future Leaders, Mentors and Leadership Workshop facilitators gathered for our Leadership Workshop Celebration and Mentorship Kick-off Event in June

## ***Celebrating Future Leaders Academy Milestone & Kicking Off Mentorship Phase***

On Saturday, June 18, the Future Leaders Academy convened in-person for the first time. The purpose was to celebrate the Future Leaders' completion of the 5-module leadership workshop and unite Future Leaders and their mentors as they begin a 12-month mentorship relationship as part of our Future Leaders Academy community.

Leadership workshop facilitator Ryan Goulart described the event as a phenomenal success and explained the importance of the mentorship phase.

“Throughout the learning trajectory of aligning their values with their goals and practicing leadership skills, the Future Leaders developed insights and refined what they want for themselves. Now the mentors can serve as an accelerant to help these Future Leaders achieve their goals and thrive,” says Ryan.

The 6 mentorship pairings were thoughtfully curated to ensure a symbiosis as each Future Leader and Mentor team worked together to develop their Mentorship Agreement, which started with sharing their values and concluded by refining SMART goals for the 12-month mentorship.

The alignment and connection of each mentorship pairing resonated with energy, optimism, and possibility as they stood up and talked about their goals, their process for refining them, and how they will go about achieving their goals together. The group photo (above), including parents, siblings and friends of Future Leaders, is evocative of the excitement we all felt when each mentorship team signed their Mentorship Agreement just moments before.

Anyone who’s had a mentor or served as one understands the transformative value of the experience, and we’re excited for what’s ahead for each mentorship team and our Future Leaders Academy community. We look

forward to spotlighting our Future Leaders and their Mentors in upcoming newsletters.
